

AI Discord Tutor

An Autonomous Learning Agent on Discord

Powered by OpenClaw · MCP Tools · Event-Driven Architecture

PEYON Emilien - GIST

The Autonomous Learning Gap

Regularity and stimulation

Students lack guided learning paths outside formal courses

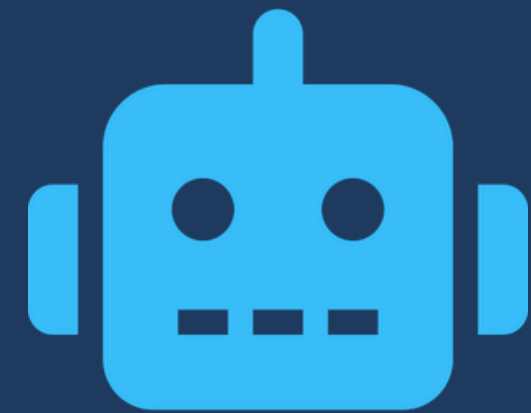

Resource Fragmentation

Finding articles and videos is time-consuming

Impersonal

Learning is different for everyone

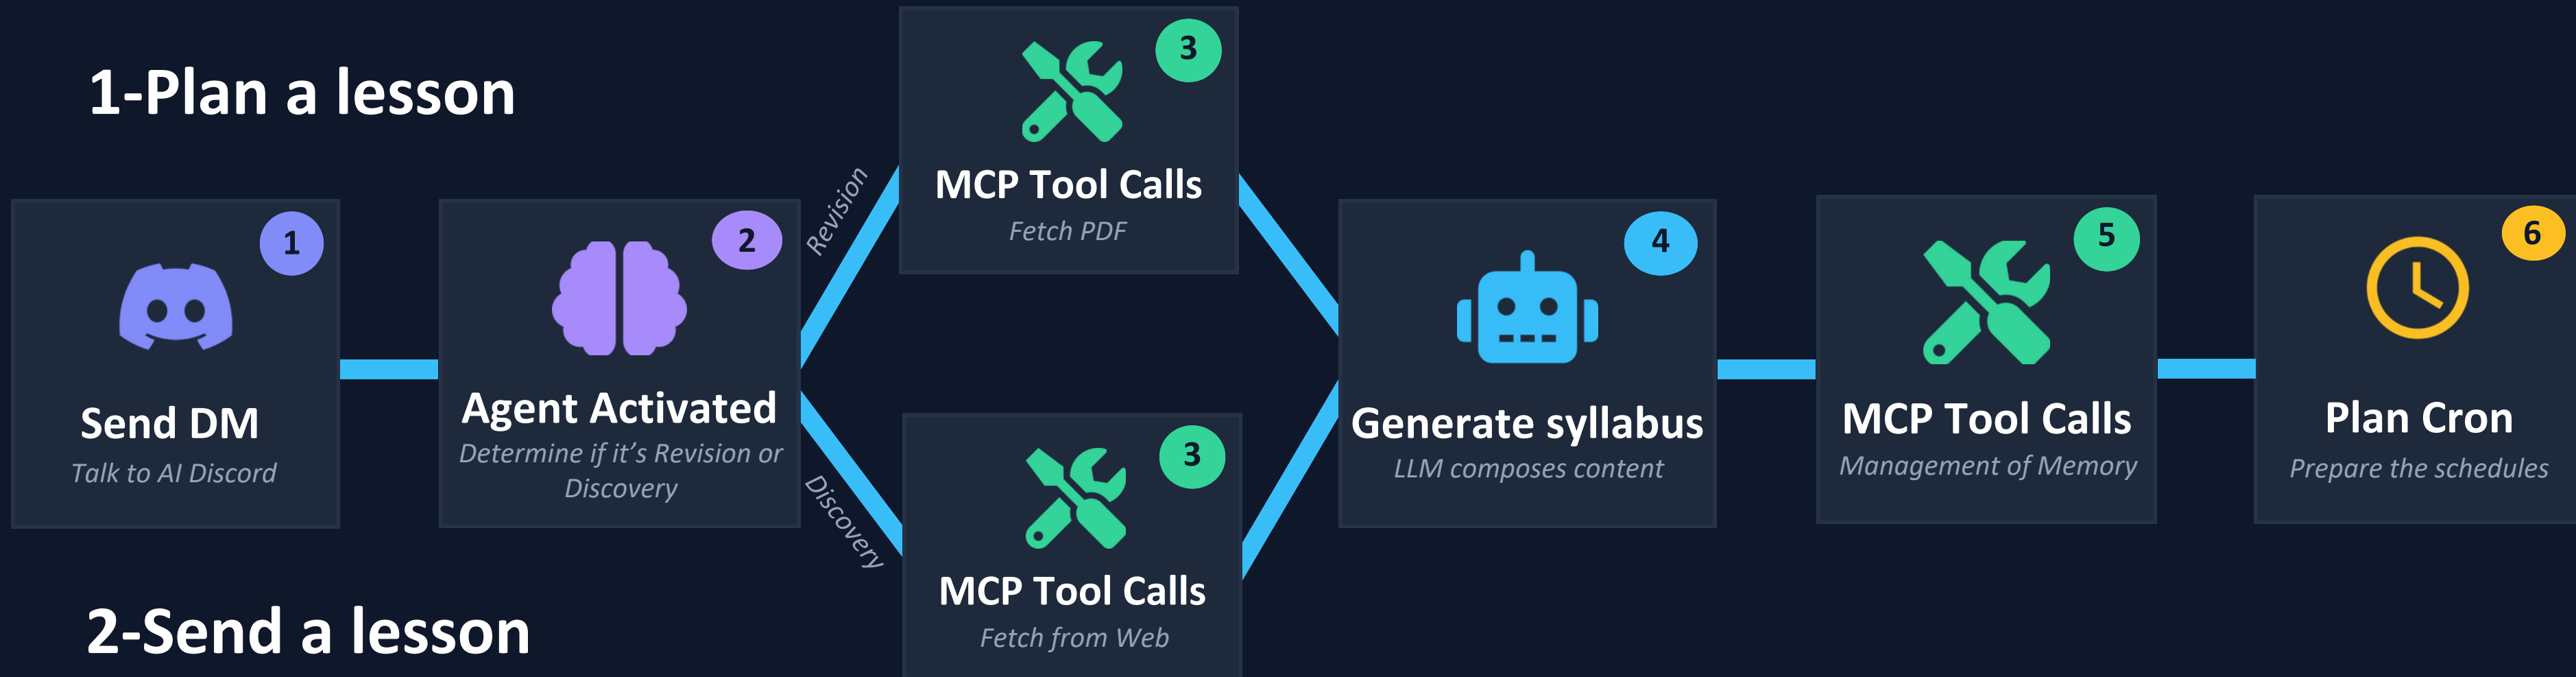

**What if the tutor
came to them?**

Proactive · Structured · Automated

Workflow & Lesson Lifecycle

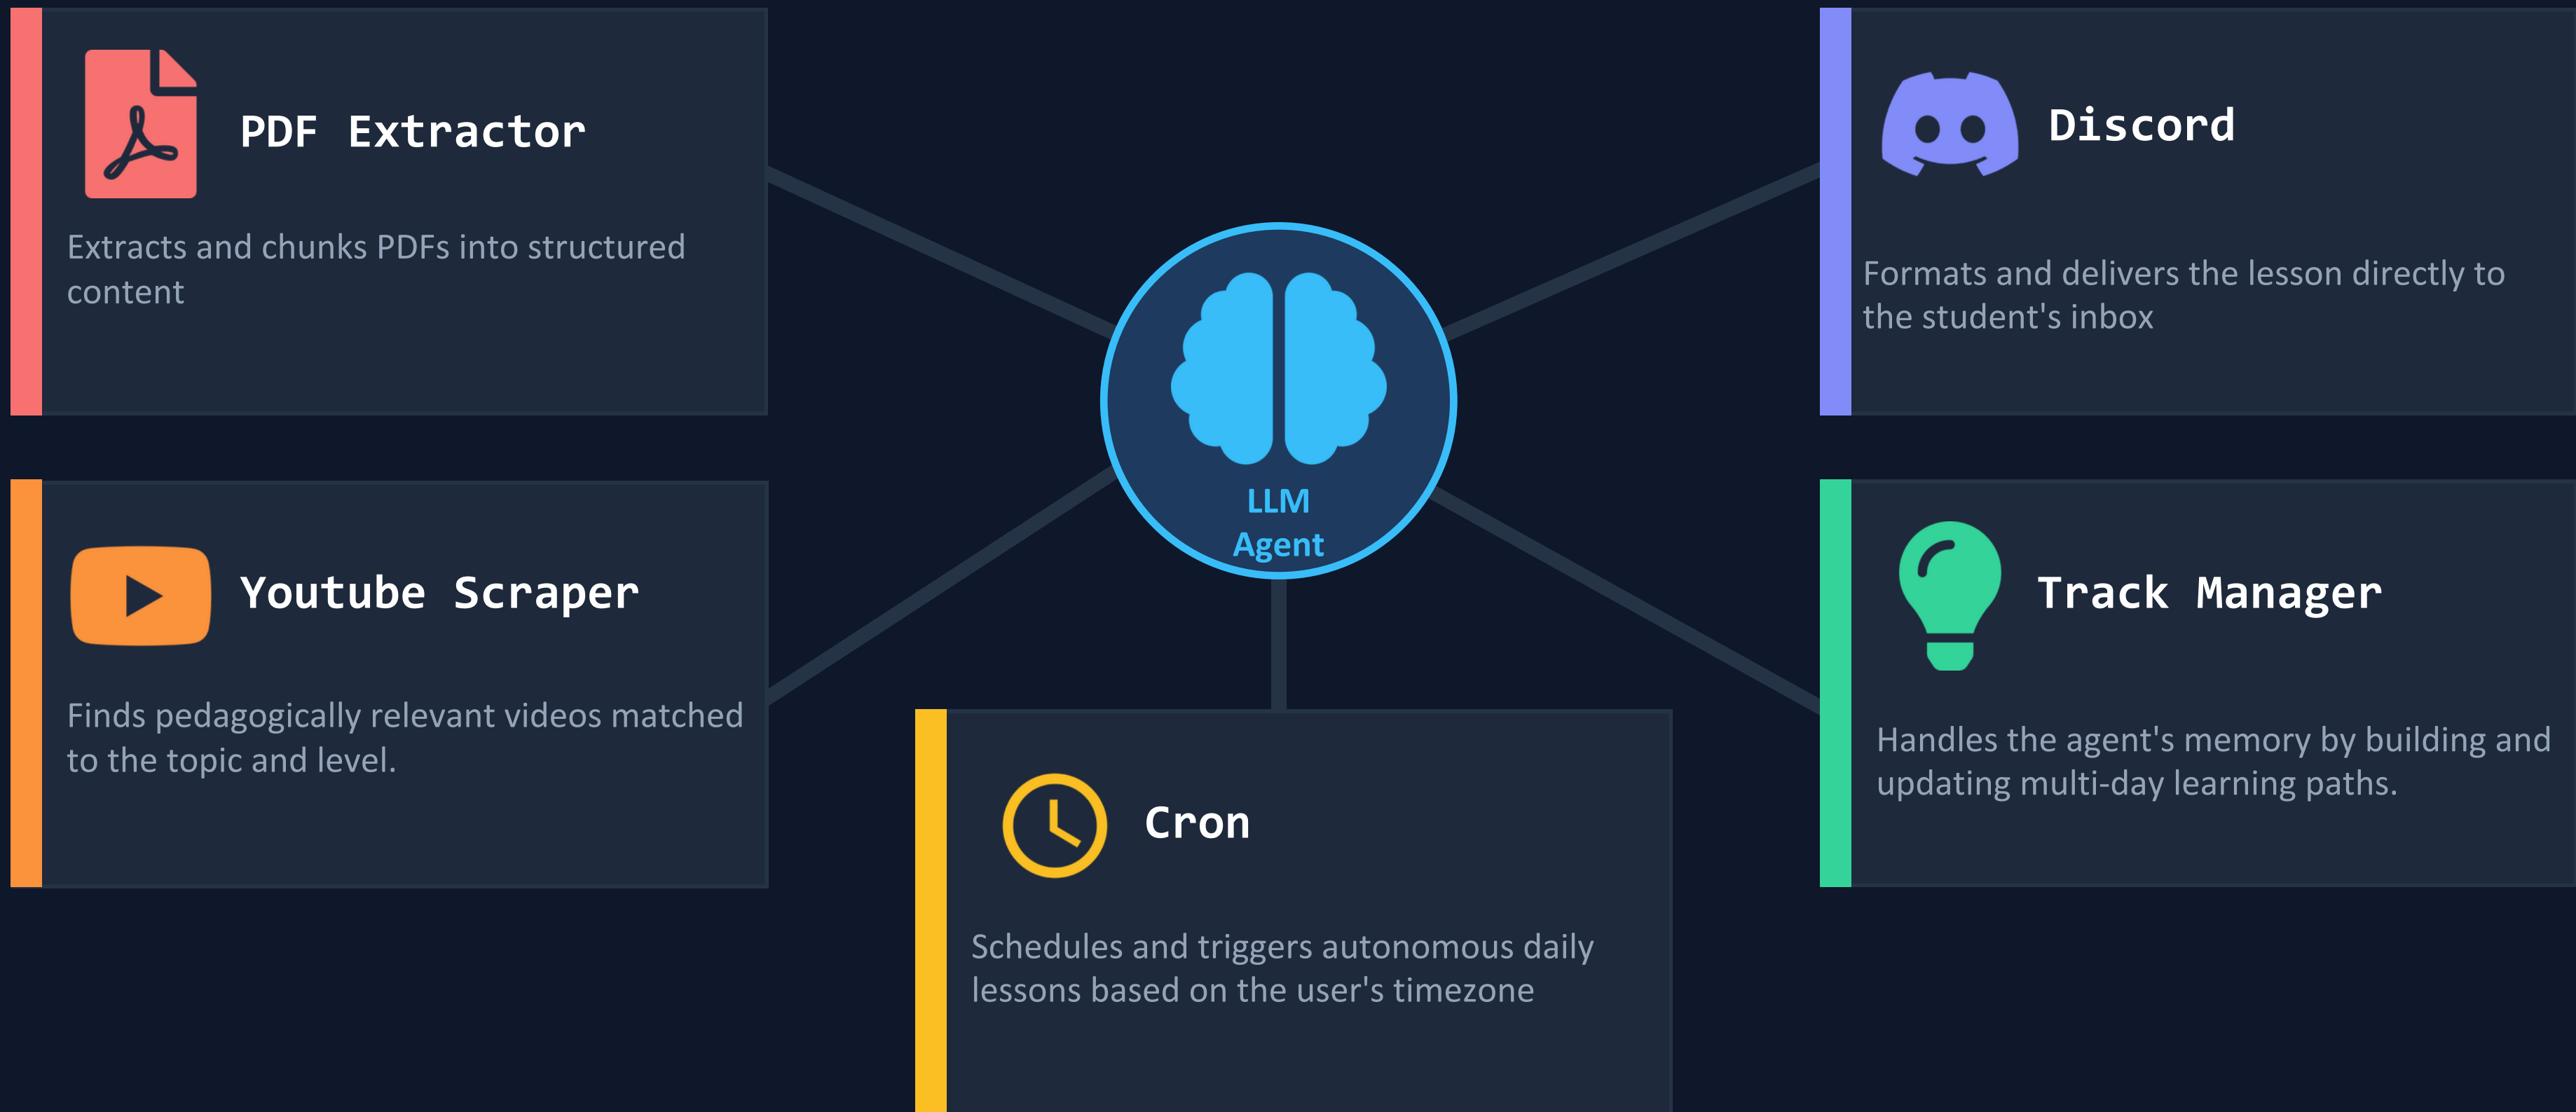

1-Plan a lesson

2-Send a lesson

MCP Tools: Agent's Hands on the World

LIVE DEMO

Command → Syllabus → First Lesson DM in real time

Possible Improvements

Interactivity & UX

● Bidirectional Chat

Allow users to ask Q&A directly in DMs

● Interactive Quizzes

Gamify the learning experience

Advanced Personalization

● Adaptive Learning

Tailor content to the learner's specific pace and methods

● Progress Tracking

Know which lessons have already been completed

Scaling & Formats

● Podcast Generation

Convert text lessons into audio formats

● Cost Reduction

Optimize LLM prompts and token usage
